Project Title: J o h n D o e
Location: 111 Park Ave, Duck Lake, MN

Plan Review No.: 20090000
Serial No: MH07 XXXXXABV

The Installation Application and attached documents submitted for the above referenced structure(s) have been reviewed and found to be in substantial compliance with requirements of the Minnesota State Building Code Chapter 1350 and 24 CFR 3285 for installation in the State of Minnesota.

The approved documents are your records for installation. Changes to these documents or addendum changes in the installation of the building are not permitted without approval from this division. All proposed design revisions shall be submitted to the Building Codes and Standards Division for approval and after authorization will be attached to the approved file plans retained by this division. A copy shall be available on-site for the inspection(s).

Before a Minnesota Installation Seal is issued for this project, all documents for the inspection and verification of compliance shall be verified by the Installer(s) prior to attaching the Installation Seal(s) to the structure.

All on-site construction performed, including the final installation of the structure, installation of mechanical equipment, and Final Occupancy approval is regulated by the authority having jurisdiction at the site of installation. It is the responsibility of the person(s) receiving installation authorization at the final site of occupancy to comply with all local laws and ordinances.

In no case shall the labeled unit be altered or otherwise brought out of compliance with the Minnesota State Building Code or 24 CFR 3280
