2015 MINNESOTA MECHANICAL AND FUEL GAS CODE

- Regulates the design, installation, maintenance, alteration and inspection of building mechanical systems that are used to provide control of environmental conditions and related processes.
- Contains detailed provisions governing mechanical and fuel gas systems using prescriptive and performance-based provisions with emphasis on performance.
- Is in Minnesota Rules Chapter 1346. The rule adopts by reference Chapters 2 through 15 of the International Mechanical Code, Chapters 2 through 8 of the 2012 International Fuel Gas Code (including amendments to both) and ANSI/ASHRAE Standard 154-2011, Ventilation for Commercial Cooking Operations.

EFFECTIVE DATE

Minnesota Mechanical and Fuel Gas Code became effective **Jan. 24, 2015**

CODE BOOK

The 2015 Minnesota Mechanical and Fuel Gas Code is a custom code published for Minnesota by the International Code Council (ICC). It includes Minnesota's amendments into the body of changed sections and reads as a unified code book. It also includes a Minnesota chapter about Administration. There is no longer a need to separately purchase the ICC model codes and Minnesota amendments and refer to them both. Now they are contained in a single reformatted Minnesota-specific code book.
The Minnesota Mechanical and Fuel Gas Code is available for free online viewing or can be purchased in soft-cover format.
