Proposed Code Change - Language

~~**AF103.12 Power Source.** To provide for permit future installation of an active sub-membrane or sub slab depressurization system, an electrical circuit terminated terminating in an approved box shall be installed during construction in the anticipated location of vent pipe fans.~~

Power Source. To provide for future installation of a vent pipe fan, an electrical circuit terminated in an approved box shall be installed in the anticipated location of the fan.

Proposed Code Change – Need and Reason

This proposal is necessary because it is overly wordy and technical. The purpose of the power source is for a future fan. The result may be an active system but the purpose of the power source is for the fan.

This proposal is reasonable because it provides succinct direction on the what is required and why.

Proposed Code Change – Cost/Benefit Analysis

This proposal will have no impact on the cost of construction.

Other Factors to Consider Related to Proposed Code Change

1. Is this proposed code change meant to:

change language contained in a published code book? If so, list section(s).

change language contained in an existing amendment in Minnesota Rule? If so, list Rule part(s).

Radon rules
