Need and Reasons For the Change. Thoroughly explain the need and why you believe it is reasonable to make this change. During a rulemaking process, the need and reasonableness of all proposed rule changes must be justified; therefore, a detailed explanation is necessary to ensure the Board thoroughly considers all aspects of the proposal.

As the lining of onsite constructed showers is not currently being done by plumbing contractors, making the plumbing contractor legally liable for the construction and testing the Plumbing Contractor has no control over., As they did not provide the materials or labor for the construction, this an undue burden on the licensed contractor. .

As written this language bring into question licensing questions.

1. Does the installation of lining material in the shower, require the installer to be licensed as a Minnesota Plumber, and the Contractor licensed , and bonded as a Minnesota Plumbing Contractor?
2. If this work is not considered work that requires Minnesota License and bonding, should the Shower and tile contractor fail to do work that complies with the Minnesota Plumbing Code, Is the Contractor who obtained the Plumbing Permit for the job, is that Contractor responsible for Code Compliance?

If your product/method standard(s) is not currently listed in a national code, your Request For Action will not be considered by the Board or its committees, however, you are welcome to present at any Board meeting during the Open Forum section of the Agenda.

The proposal must be accompanied by copies of any published standards, the results of testing, and copies of any product listings, as documentation of the health, sanitation and safety performance of any materials, methods, fixtures, and/or appurtenances. If none are available, please explain:

Please attach electronic scanned copies of any literature, standards and product approvals or listings. Printed or copyrighted materials, **along with written permission from the publisher to distribute the materials at meetings**, and email to DLI.ccldbboards@state.mn.us
