

## 2026 BOT Municipal Grant

### Exhibit B-2 Advanced level training requirements

| <b>Sec.</b> | <b>Training Description - Includes plan reviews and inspections</b>                             |
|-------------|-------------------------------------------------------------------------------------------------|
| <b>1</b>    | <b>Achieve Building Official - Limited certification</b>                                        |
| <b>2</b>    | <b>ICC certifications or College courses related to this level of training</b>                  |
| <b>3</b>    | <b>Use and Occupancy Classifications MSBC Ch. 1305 Ch. 3</b>                                    |
| <b>4</b>    | <b>Special Requirements Ch. 4</b>                                                               |
| <b>5</b>    | <b>Heights and Area Separations Ch. 5</b>                                                       |
| <b>6</b>    | <b>Types of Construction Ch. 6</b>                                                              |
| <b>7</b>    | <b>Fire and Smoke protection features Ch. 7</b>                                                 |
| <b>7a</b>   | Fire Ratings: testing, labeling, materials, agencies, application methods                       |
| <b>7b</b>   | Exterior walls Sec. 6 & 705                                                                     |
| <b>7c</b>   | Fire Walls Sec. 706                                                                             |
| <b>7d</b>   | Fire Barriers Sec. 707                                                                          |
| <b>7e</b>   | Fire Partitions Sec. 708                                                                        |
| <b>7f</b>   | Sound Transmission Systems                                                                      |
| <b>7g</b>   | Smoke Compartments Sec. 709 & 710                                                               |
| <b>7h</b>   | Horizontal Assemblies Sec. 711                                                                  |
| <b>7i</b>   | Vertical Openings & Shafts Sec. 712 & 713                                                       |
| <b>7j</b>   | Penetrations, Opening Protectives Sec. 714 – 716                                                |
| <b>7k</b>   | Ducts & Transfer Openings Sec. 717                                                              |
| <b>8</b>    | <b>Interior Finishes Ch. 8</b>                                                                  |
| <b>9</b>    | <b>Fire Protection and Life Safety Systems Ch. 9</b>                                            |
| <b>9a</b>   | Acceptance Tests Sec. 901.5                                                                     |
| <b>9b</b>   | i. Municipalities procedures                                                                    |
| <b>9c</b>   | Automatic Sprinkler Systems                                                                     |
| <b>9d</b>   | Alternative Automatic Fire Extinguishing Systems Sec. 904 i.e.: Ansul, CaptiveAire, etc.        |
| <b>9e</b>   | Standpipe Systems Sec. 905                                                                      |
| <b>9f</b>   | Portable Fire Extinguishers Sec. 906                                                            |
| <b>9g</b>   | Alarms, Detection, Communications, Emergency Response Sec. 907,908, 911, 912, 914, 915, NFPA 72 |
| <b>9h</b>   | Smoke and Heat Control & Exhaust Sec. 909, 910, 916                                             |
| <b>9i</b>   | Fire Pump and Pump Rooms Sec. 913, NFPA 20                                                      |
| <b>10</b>   | <b>Means of Egress Ch. 10</b>                                                                   |
| <b>10a</b>  | General Requirements                                                                            |
| <b>10b</b>  | Occupant Load                                                                                   |
| <b>10c</b>  | Means of Egress:                                                                                |
| <b>10d</b>  | Doors                                                                                           |
| <b>10e</b>  | Stairways & Ramps                                                                               |
| <b>10f</b>  | Signage                                                                                         |
| <b>10g</b>  | Guards and Handrails                                                                            |
| <b>10h</b>  | Exit Access                                                                                     |
| <b>10i</b>  | Exits:                                                                                          |
| <b>10j</b>  | Horizontal Exits                                                                                |
| <b>10k</b>  | Exit Passageways                                                                                |
