

Work Comp Campus ‘Documents’ tab updates

Work Comp Campus users now have a central place to view all documents and transactions related to a claim. Here is what is new in the claim “Documents” tab.

1. Now, the “Documents” tab displays all documents and associated transactions.
 - This will save Campus users from navigating to multiple tabs to access documents and related transactions.
 - Documents and transactions can still be found in their previous locations, as well as at this new central location.
 - Campus users have not been given any additional access, only documents and transactions the user already has access to will appear in the “Documents” tab.
2. An attachment indicator for documents with multiple attachments has been added in parentheses next to the document type.
 - This allows users to easily identify attachments, as well as see how many.
3. A new “Related Transaction ID” column has been added.
 - This allows users to easily navigate to the related transaction from the “Documents” tab.
4. The default number of items shown on each page has been changed from 10 to 50.
 - This allows users to browse more documents before moving to the next page to search.
