

CODE BOOK FACT SHEET

2020 MINNESOTA RESIDENTIAL ENERGY CODE

Minnesota Department of Labor and Industry

2020 MINNESOTA RESIDENTIAL ENERGY CODE

- Provides energy-conserving standards for the design, construction, alteration, renovation and repair of residential buildings including commercial residential buildings up to three stories tall.
- Contains design and construction standards regarding heat-loss control, illumination and climate control.
- Located in Minnesota Rules Chapters 1322. This rule chapter adopts by reference Chapters 2(RE) through 5(RE) of the 2012 International Energy Conservation Code (IECC) for residential and Minnesota amendments to the IECC. The IECC includes requirements for both residential and commercial buildings but only the residential provisions apply to the Residential Energy Code.

EFFECTIVE DATE

- Residential Energy Code is effective Feb. 14, 2015.

CODE BOOK

The 2020 Minnesota Energy Code is a custom code published for Minnesota by the International Code Council (ICC). It includes Minnesota's amendments into the body of changed sections and reads as a unified code book. It also includes a Minnesota chapter on Administration. The Minnesota Commercial Energy Code has been revised as of Jan. 5, 2024, and the contents in this publication that are specific to commercial energy code are superseded by a new code contained in a separate document.

Code books are available for purchase and free, online viewing is also available.
