

## Measures and Supporting Data Needed by the NHWSB for On-going Evaluation

- Type of Measures (How are we going to measure?)
  - Statewide
  - Regional
- Timeframe for reporting and commitment to annual development
- Establish a standards and outcomes workgroup
- Work with third-party or consultant with expertise on outcome measure development, community measures.
- Possible data/measures
  - Closures, bed layaway, bed closure
  - Community access
  - Resident satisfaction
  - Family satisfaction
  - Impact on MDS quality indicators
  - Medicaid and private pay rates and nursing facility cost coverage
  - Health Insurance. Impact on take-up, relationship with MinnesotaCare, reducing hours
  - Change in hours and benefits, substitution patterns
